AMBULIFT CLASSIC
Powered bathing aid

...with people in mind
POWERED BATHING FOR THE SMALLER BATHROOM

Static powered bathing
Ambulift Classic Q operates in a very restricted space, and is therefore the ideal bathing system for the smaller bathroom, or where doorways are narrow.

The hoist is secured to the floor at the corner of the bath. The patient can be easily transferred from a wheelchair or bed to the bathroom on the Ambulift Classic chair. The encircling arms on the chair fold back to allow easy side transfer. The chair and sub-chassis form a compact and highly manoeuvrable unit which passes easily through narrow doorways.

Mobile powered bathing
Ambulift Classic is designed to operate in a variety of bathroom designs. Ambulift Classic M has an adjustable width chassis which allows access around the end of an island bath, and if necessary the whole unit can be removed from the bathroom. The handset allows the carer to stay close to the patient at all times.
PRODUCT SPECIFICATIONS

Options

An optional electronic scale for accurate and easy weighing of the patient.

A chair with a commode aperture is available. The commode facility promotes easy washing. An extending leg rest can be supplied.
